TECHNICAL COMPETENCIES

Data Platforms & Lakehouse: Azure Databricks, PySpark (Spark SQL), Delta Lake (ACID, Time Travel, Liquid Clustering), Azure Data Factory (ADF), ADLS Gen2, Medallion Architecture (Bronze/Silver/Gold).
Streaming & Databases: Apache Kafka, Redis, PostgreSQL, TimescaleDB, MongoDB, advanced SQL (window functions, CTEs).
Cloud & DataOps: Terraform (IaC), AWS (EKS, VPC, IAM), Docker, Helm, Jenkins CI/CD, GitLab CI, Linux/Bash, Git.
Observability & Governance: Prometheus, Grafana, ELK Stack (Logstash Grok), Data Quality Gates, Unity Catalog concepts.

PROFESSIONAL EXPERIENCE

CGI India (PNC Bank GCC) | Azure Data Engineer / Cloud Infrastructure (Jun 2026 – Present • Hyderabad / Bangalore)

- Standardized multi-tenant AWS EKS cluster infrastructure using Terraform modules and Ansible, establishing reproducible VPC peering, IAM role bindings, and auto-scaling node groups across environments.
- Engineered declarative CI/CD pipelines across Jenkins and GitLab CI with Trivy vulnerability scanning and quality gates, cutting deployment lead time by 40%.
- Hardened ingress routing and data API gateway policies using Nginx Ingress and Kong Gateway with rate-limiting and mTLS, slashing gateway latency overhead by 15% across 8 production microservices.

Himachal Futuristic Communications (HFCL) | Engineer 1 - DevOps - Platform Engineering (Aug 2025 – Jun 2026 • Gurugram / Bangalore)

- Orchestrated stateful distributed data backbones (Apache Kafka, Redis, PostgreSQL, TimescaleDB, MongoDB) on Kubernetes via StatefulSets; configured Velero DR and Prometheus/Grafana alerts, slashing RTO from 8h to 30min (93% reduction) and MTTR by 45%.
- Automated bare-metal Kubernetes (kubeadm) cluster lifecycle management using 40+ Ansible roles and Jinja2 templates (OS hardening, CNI, Harbor, Helm), cutting cluster bootstrap time from 2 days to 4 hours (83% reduction).
- Operated a 50-node on-premise Kubernetes platform for 15+ mission-critical microservices with namespace isolation, RBAC, and HPA, sustaining 99.95% platform availability.

CGI India | Security Analyst Apprentice (Log Analytics & Telemetry) (Sep 2024 – Aug 2025 • Bangalore)

- Deployed centralized log telemetry pipelines via ELK Stack (Elasticsearch, Logstash, Kibana), authoring custom Logstash Grok patterns that transformed unstructured telemetry into structured schemas and accelerated incident triage by 50%.

KEY ENGINEERING PROJECTS

Enterprise Medallion Lakehouse Platform on Azure (Azure Databricks, PySpark, Delta Lake, ADF, ADLS Gen2, Terraform)

- Architected an end-to-end Medallion Lakehouse on Azure Databricks and Delta Lake, orchestrating ADF pipelines to ingest transactional event datasets into curated Bronze, Silver, and Gold layers across ADLS Gen2.
- Optimized distributed PySpark batch transformations with schema validation and partition pruning, slashing ETL pipeline runtime by 35% while ensuring ACID transactional consistency.

Real-Time Streaming Ingestion & CDC Lakehouse (Apache Kafka, Spark Structured Streaming, Delta Lake, Unity Catalog)

- Engineered a low-latency real-time streaming ingestion pipeline using Apache Kafka and Spark Structured Streaming, processing 2M+ events/day into Delta Lake with under 500ms end-to-end ingestion latency.
- Implemented Change Data Capture (CDC) with Delta Lake merge operations and Unity Catalog access controls, cutting data freshness lag from 4 hours to near real-time (sub-minute).

Cloud Data Platform CI/CD & Governance (Azure DevOps, Terraform, Great Expectations, Prometheus/Grafana)

- Automated end-to-end DataOps release cycles using Azure DevOps multi-stage YAML pipelines and Terraform IaC, provisioning reproducible Databricks workspaces and storage accounts with zero manual intervention.
- Configured automated data quality validation gates with Great Expectations and Prometheus/Grafana monitoring, catching 99.2% of upstream schema anomalies before Gold table ingestion.

EDUCATION & CERTIFICATIONS

B.Tech in Computer Science and Engineering | Maharishi Dayanand University (MDU), Rohtak (2020 – 2023)
Certifications: Microsoft Certified: Azure Fundamentals (AZ-900) | Microsoft SC-200 | Databricks Data Engineer Associate (In Progress)
